Class Prophecy

On receiving an invitation from my old Alma Mater, to attend the 1972 alumni banquet, decided to leave my Alaskan gold mine to visit my classmates of 1962.

Upon my arrival, I was greeted by none other than Professor Jones, the new principle, who is better known as "King Bee." I talked with him a few minutes and he told me that we now had two winning basketball teams, coached by Bobby Armstrong.

As we were seated to dinner I heard a familiar voice to my left. As I turned around I immediately recognized Betty King, who told me she was a "happily married" preacher's wife. She said, "Ivan Duggin, now a famous musician, wasn't able to attend the banquet because he was previously engaged to appear in Carnegie Hall."

As I glanced back to the kitchen, I saw that the head cook was the famous chef, Betty Jo Parker. After the meal, I talked with her and asked her about our classmates. She told me that Susie May no longer was called Cooper and was a nurse at the Red Cross station in Kalamazoo, Michigan. Marie Barrett, a hair stylist, gets plenty of practice on her three redheaded girls. Also she said Paulette Bogle, who finally married her beloved, had made a perfect housewife.

As the entertainment got under way, I was pleased to find that the speaker was Dr. Donnie Harris. Afterwards "Ducks" said he was founder of Harris College, where Donna Gaither was still trying to acquire her college education. He told me my good friend Jimmy Barrett lost his fortune on automobiles and now ran his own bicycle shop.

As I was driving my private airplane back to Alaska my life was enriched by having met and talked with my old classmates. I'm looking forward to our next meeting at the 1982 alumni banquet!
